

the SPACE

online art exhibition project

the SPACE is an online exhibition project. Beginning in 2013, the SPACE will present 12 exhibitions annually, which will appear exclusively on our website. Artists from around the world are invited to submit proposals for projects to be showcased on **the SPACE**. The programmatic focal point of **the SPACE** is not media specific or confined to "internet art"; a plethora of artistic manifestations, be they photography-, text-, audio-, conceptually-, or however else based, are welcome.

What we do:

We invite artists to realise their projects for **the SPACE** with us. The exhibited work will be presented online at www.thespacesite.de. We offer our support (technical or otherwise) in the execution of the work, and try to arrange third-party expertise should the demand arise. We take care of the publicity surrounding the show as well as the opening, which will take place in Berlin, Germany (and online, of course), in collaboration with **Institut für alles Mögliche** (institute for all kinds of things, www.i-a-m.tk).

What we don't do:

We do not have a budget, at least for the time being. **the SPACE** is not an online "art portal" offering "young artists a platform to showcase themselves". Instead, **the SPACE** will establish an ambitious program, consistently and successively presenting content of high artistic merit. **the SPACE** will concentrate on presenting only one position/project at a time, as would be the case in a physical space or gallery.

Application:

Applications are to be submitted online. Please email us a clear sketch of a proposed project, a CV and information/documentation of previous work (e.g. PDF portfolio or website link). Beyond this there are no formal requirements for an application.
